HELPING PROACT TRADERS BECOME SUCCESSFUL IN THE FOREX WWW.PROACTTRADERS.COM

We exist to provide the finest charting program in the Forex. We color-code to show Momentum and Harmony, give clear exit points and unparalleled training resources.

Helping you achieve your trading goals

EAS now is an Auto Trading program

We continue to make improvements for our traders! Our goal is to have everything you need to be successful in the Forex.

We always wanted to trade the London session but due to having a business to run were unable to do it. We found a third party software that allows us to do it and allows you as the trader to have your account auto traded when we make our trades.

This also means that we could reduce the price to you as a trader since we could potentially get more pips.

We had a few bumps as we started but now things are settling down so keep an eye on this product and if it meets your needs, try it for a month.

It costs only \$100 (100 pips with a 1 lot mini).

Trading Tips

Watch for bounces on the very special moving averages that we have on our charts—**ESPECIALLY the MA's on the RF60/10**. As price heads toward the MA's WITH THE TREND—look for it to bounce on the MA. This is one reason why we do NOT use standard MA's since we found that ours give us a better, more high probability opportunity.

The Dog Days of Summer!

Well at least that is what it seemed like here in central Texas! Sixty nine...count them...sixty nine days above 100 degrees! The heat was almost unbearable and it seemed to wear on us and created stress and strain that would not normally have been present. Then add the pressures of the economy and the world to each recipe of life and it was just short of RIDICULOUS!

But thank God today was the first day of autumn and the weather was cooler and the change of season was so long awaited here! I am sure that many of you experienced your own version of “Dog Days” and perhaps are as happy as I am that they have faded away. What we do know is that with each new season there is change. The air changes, the temperature changes, nature changes...and we know that change can be very good. Trading is no different...the summer is over. Slow markets, whip saws, unpredictable directions due to the lack of real momentum or too many people on vacation when you want to trade. So many factors to consider and most all of them out of your control. Like a farmer waiting on rain...we wait for momentum! Sometimes we get it, sometimes we don't, sometimes we don't get enough and sometimes we get too much at the wrong time! But just like the farmer, if we are wise and don't risk everything during these times, we live to plant and harvest another season!

All of us at ProAct Traders are very honored that you choose to be part of our family! We never have and never will take it lightly! That means that we are here pulling for you to succeed in your life and your endeavors, of which one is trading. With that in mind we wish to encourage you (if you suffer from them) to get out of the “Dog Day” attitudes that are created by those very crazy summer months of trading and jump back into the routine of training, study and learning!

We have made many changes to the website and content in an attempt to help you achieve your goals. So please, do yourself and those around you a favor; go to the ProAct website and take a leisurely stroll and see what is there that you might could use. Be honest with your assessment of where you are in trading and let us know if we have not supplied you with the tools you need to grow. And remember that in order to get a good harvest, you must prepare the soil, plant the seed and then water and fertilize the new crop! This is all WORK and that is what it takes to win in the Forex.

Blessings to you all,
Jerry Rankin, President
ProAct Traders LLC.

HEADS UP?

The RF 60/10 is the BEST trade to first learn when you come to ProAct Traders.

Why?

The 60 and 10 have very special indicators built in that are NOT designed to find price. They are designed to identify high probability **ENVIRONMENTS** for good trades.

The Black Jack tells you if momentum is strong enough to change the direction of the MA. The MA changes color when it gets in harmony for this directional move. The HMI tells you when momentum is strong enough to push the currency.

Having a 60 min view and the 10 min view tells you if you have harmony at both the little guy and big boys level.

The Endeavor Group

“Intellectual growth should commence at birth and cease only at death”

Albert Einstein

Every Trader struggles at times! **EVERYONE!**

So what do you do when you find yourself in this phase of your trading career? First of all you admit that that is where you are. You can't change anything until you admit that you have a problem.

Once you have admitted that you are struggling...now you can begin the process of getting out of this phase of your Forex Journey

At ProAct we created a special

group for subscribers in this phase.

1) We have our own group in the ProAct Family room where traders interact with each other and help each other through the process.

2) We have our own website with special resources just for you.

3) We have our own Training night every other Wednesday night that is geared to fix the problems we encounter when we are struggling.

You cannot expect different results if you keep doing the same thing!

Look at the graphic below. You will see that there are multiple times when traders struggle—and it is always right before the break through.

If you are struggling—**DON'T TOUGH IT OUT.** Let us help you get to the next level. It is part of our continuing effort to have **NO TRADERS LEFT BEHIND!**

4) How to join? Go to the ProAct Family Room and join the Endeavor Group—or contact us on the CONTACT US page and we will point you in the right direction.

Getting the most from our charts

Use patterns to confirm probable direction

There are 4 very special patterns that overwhelmingly resolve themselves in the direction that the pattern is designed to show. **THESE 4 MUST BE MEMORIZED** and it takes at least 200-500 of these patterns, PERSONALLY drawn by the trader to teach yourself them! **Why do we like them?** We almost always get a Wild Card, RF 60/10 or 6 Aces on the break of these patterns

Here they are:

Bull Flag

Bear Flag

Ascending Wedge

Descending Wedge
