

How to UnZip a file in Windows XP or Vista

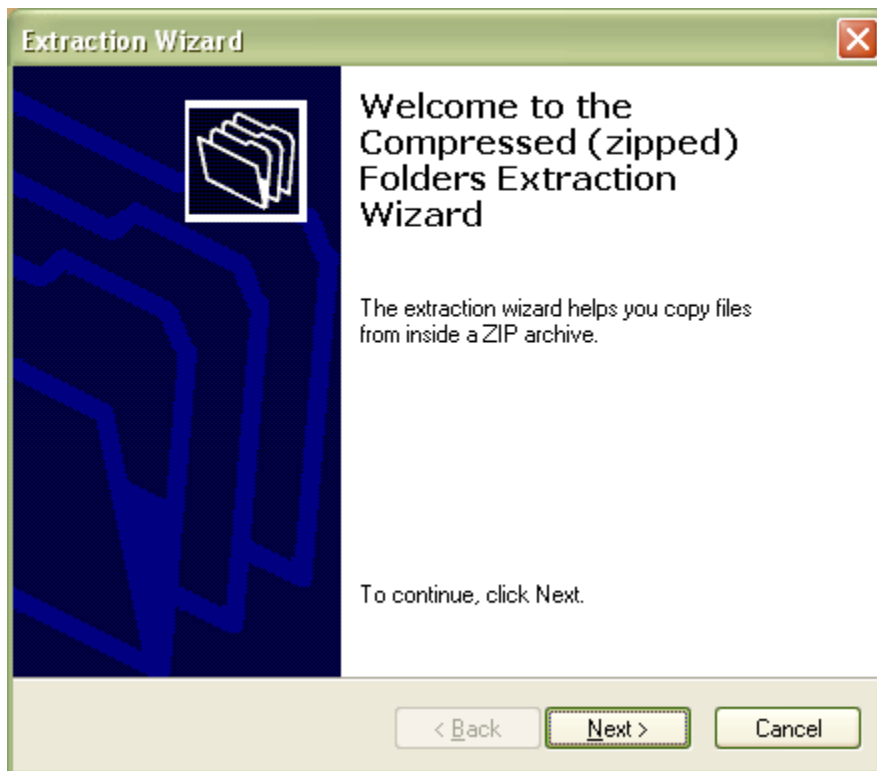

1. Double-click the zipped file.

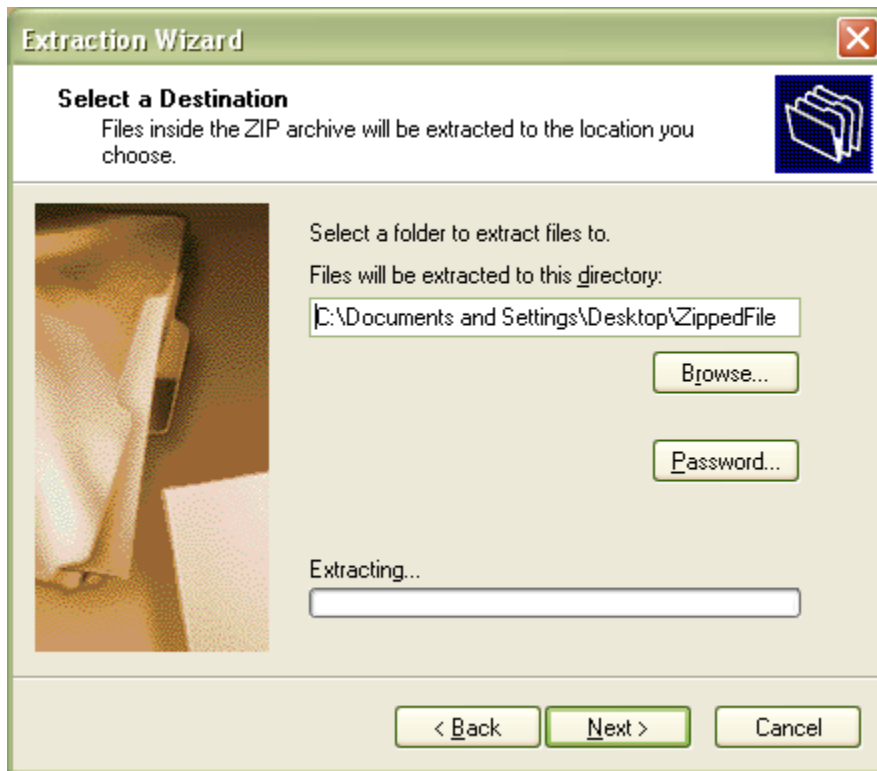

2. In the window that opens, click **Extract all files**.

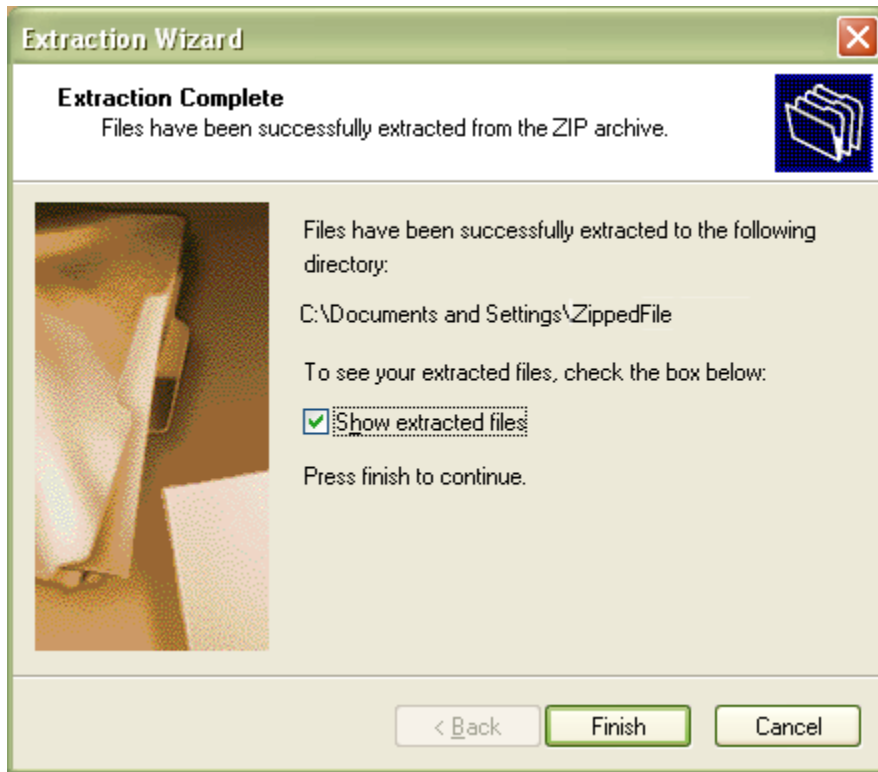

The Extraction Wizard opens.

3. Click **Next**.
4. In the Select a Destination panel, select the location where you want the folder to be placed, for example, the Desktop. Click **Next**.

5. In the Extraction Complete panel, select **Show extracted files**. Check **Finish**. The unzipped files appear in a new window.

6. Use the contents of the zipped file as instructed in the solution.
