What do I need to Trade Forex

Essentially 7 things have to come together. They are:

1. Essential tools to trade the Forex
2. Education to understand how to calculate Forex movements
3. A methodology to execute trades based on risk vs. reward
4. A firm grasp of technical analysis
5. Some help along the way
6. Experience
7. Your psychology

ProAct Traders has brought all of the above under one roof. Let's look at them briefly.

Essential tools to trade the Forex

- ProAct Charts are “cutting edge” technology with 3 proprietary tools available nowhere else. The data feed cost is included in the cost of the charts. Do you want to know how much that is? [Click here](#) and then click on 86,400 per month ... hint: it is \$278 per month just for the cost of the candles.
- We have partnered with one of the top Forex Brokers in the world to bring you great broker execution, tight spreads, a free trading platform and our Broker (FXDD) is willing to defray your Forex costs based on your trading volume.

Education to understand how to calculate Forex movements

- We have a vast library of tutorials, ebooks, recorded webinars for traders
- We do market analysis daily in the New York market
- We have a beginners class every week
- We have a live RF1010 training class in the New York and London Sessions

A methodology to execute trades based on risk vs. reward

- Traders want one trade that they can learn and it will occur every day for them. Unfortunately, that would require that the market do the same thing every day, which it does not. Don't fall for the hype that there is a "holy grail" in Forex trading and that someone has it. They don't. What we do have is one trade that happens every day that could lead you to another trade setup.
- The market ranges, trends and reverses and you need a separate setup for each one.
- That setup must have high statistical probability and meet established Risk for reward standards to be a tradable setup. ProAct has a setup for each.

A firm grasp of technical analysis

- We have daily market analysis in the New York session
- Bi- weekly we have an Endeavor class for traders who are struggling in understanding the concepts of technical analysis
- Bi- weekly we have an Advanced class for traders who are ready for more advanced concepts on their route to becoming an accomplished trader
- Tutorials and recorded webinars are available for each of the groups above

Some help along the way

- A live RF1010 class every day
- The ability to ask for a "one on one" and get some help
- Email help as well as live chat available daily
- Experience live traders who teach our classes, man our rooms and do our webinars
- Mentorship is also available to those who want to "accelerate their learning" and "collapse the time frame" to learning the Forex

Experience

This is the one thing we can't give you. This is totally determined by your dedication and commitment to your dream. We can tell you this: If you bounce from system to system you will never get the experience you need to progress. But if you commit to us, we will commit to you. After all, our motto is **"No Trader Left Behind"**.

Psychology

When all of the above comes together, your psychology comes together also. You are now confident in your ability to analyze the market, confident in your trade setups, comfortable with your money management and risk/reward management and experience has taught you that losses are part of the process.

So commit to the process - click the links below and get your experience under our roof.

It is your dream – what will you do with it? Our dream is that you find your Forex home with us.
